Reflection™ with Auto Cover Box in Graphite Grey

Leisure Pools® has taken the Reflection™ into the next generation by adding a built-in housing for an optional automated pool cover.

The benefits of having a retractable cover will not only improve your heating options, but also keep your pool free from leaves and debris. Furthermore, you will have the ability to automatically retract your pool cover out of sight.

Perfect for a variety of climates and surroundings, this design not only offers a tidy environment to store the cover, but also provides efficient use of space by having it built into the pool.

With The Reflection™ with Auto Cover Box, you really can have the best of both worlds: a functional, stylish and elegantly designed swimming pool with the option to cover your pool in an efficient and easy way.
